- ✓ Tiles retains a natural look, does not alter the appearance.
- ✓ Will not etch, alter, or discolour the natural look.
- ✓ Highly breathable, allowing water vapour to escape.
- ✓ Alkali resistant, food safe.
- ✓ Non-Film forming means it will never peel or flake.

HOW IT WORKS

Aqua Shield HD ® tile and grout sealer works using advanced fluorine chemistry technology which reacts with the surface pores, leaving an invisible, breathable, protective barrier against staining as well as water and oil-based containments. Aqua Shield HD ® tile and grout sealer is a premium fast curing sealer, is ideal both indoors and outdoors, tiles, grout, and natural stone.

SUITABLE SURFACE TYPES

Designed for granite, travertine, limestone, slate, sandstone, terracotta, porcelain, ceramic tiles.
